THE WHIG PLATFORM. The Whigs of the United States, in Convention assembled, firmly adhering to the great conservative republican principles by which they are controlled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for self-continued devotion to the government and their continued devotion to the constitution and the Union, do proclaim the following as the political sentiments and determina-tions for the establishment and maintenance of

which their national organization as a party is 1. The government of the United States is of a limited character, and it is confined to the exa limited character, and it is commend to the ercise of powers expressly granted by the constitution, and such as may be necessary and proper for carrying the granted powers into full execution; and that all powers not thus granted or

necessarily implied are expressly reserved to the States, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the palladium of our liberties."

3. That, while struggling freedom everywhere

enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of his Country, as announced in his Farewell Adhis Country, as announced in his Farewell Address, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign ground. That our mission as a republic is not to propagate our opinions, or impose on other countries our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free institutions.

4. That where the people make and control the government, they should obey its constitution, laws, and treaties, as they would retain their self-

ciples of the strictest economy, and revenue sufficient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimi-nation, and protection from fraud by specific du-ties when practicable, whereby suitable encouragement may be assured to American industry equally to all classes and to all portions of the

 Country.
 The constitution vests in Congress the power to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every in-

of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitu-tional measures of each, are duties required by the plainest considerations of national, of State, and of individual welfare.

monly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of furpowers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will maintain this settlement as essential to the nationality

of the Whig party and the integrity of the Union.

THE LOST SENSES DEAFNESS AND BLIND

NESS. By Dr. Kitto.

"This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever sloce his boyhood, for more than thirty years, Dr. Kitto has passed a life of great activity as a sebolar, in a state of the most intense deafness to which any living creature can be subjected. His account of himself, and of his discriminating remarks on the condition of the blind, (James Mitchell, Laurs Bridgeman, and others,) are replete with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

sep 3—tr MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S PLANOSPHENCAL QUARTE CRUBRING AND PULVERIZING MACHINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverising Quarts, Iron Ore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverising into the finest powder any amount of Quarts or other earthy matter, in proportion to the amount of weight or powar applied. The earthy matter is so completely ground and pulvarized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be re-

subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being put out of order; nor do they heat any material while being put out of coder; nor do they heat any material while being put out of order; nor do they heat any material while being put on too of order; nor do they heat any material while being put of these order in the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any after, for crushing, grinding, or pulverizing, heretafore offered to the public.

These machines may be seen in operation at the foot of South Righth, Street, Williamsburgh, at the large Patent Block and Saw Factory of Mesars, Burr, Waterman & Co. first street south of Peck Slip Ferry, every day, from 7 to 9 a. m., and from 4 to 6 p. m. For further particulars, apply to 32 Cliff street, New York.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Waber Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE.

KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HARVESTER

IS BEFORE THE PUBLIO FOR THE FIRST TIME
I'S utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or tecth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentysere field without emptying. The heads are then loaded
into a wagon and taken directly to the mili for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every furner will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN CO., N. J., We, the undersigned, do certify that we have seen Mr. Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and the satisfaction.

one-half for gathering and threshing.

JAMES D. TIMBERMAN,

WILLIAM P. GARWOOD,

JOHN F. COOK, JOHN F. COOK,
JAMES B. COOK,
JAMES BRYSON,
PETER H. JONES. WM. C. NICHOLSON, JAMES COLLINS, CHARLES LEWIS, THOMAS TUMBLESON,

LONG-A-COMING, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the We have conversed with a number of Farmera, and they are of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield from 1½ to 3 bushels. Reducing it to a certainty of yielding but 1 bushel per acre, what will it cost to gather and thresh 1,000 acres.

have found them to agree unanimously with the affive calculation.

Perhaps no invention offers greater inducements for a
profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of
money could without doubt be realized from the sale of
rights in the different States of the Union not yet disposed
of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better
or more money-paying business.

Those who wish to see a model of this celebrated farming
implement, and the satisfactory manner in which it operates,
can do so by calling at

Hampton's Vegetable Tincture!

THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VSOETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT ROYAL, Va., July 27, 1862.

must carry conviction, and induce many subserves to give
this Tincture a trial:

Pour Royat, Va., July 27, 1862.

Mestra. Mortimer & Moubray: Gents: We have again to
send an order for more of your truly wonderful Hampton's
Vegetable Tincture. Since it was first tried it has sold
without an effort, and we have not seen the first person
who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death.
He had taken but three doses when he assured wis he would
not take five hundred dollars for the benefit he had dorived, and that he should never cease to remember us with
gratitude for calling his attention to so yaluable a medicine.

Yours, truly,

GRAY*& PENDLETON.

The Whole World, Attention!-Hear him, ye sick, and do likewise!!

and do likewise!!

Baltringer, Feb. 9, 1832.

Mesers. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-laver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vertigö, confining me at times to my bed. I am fally convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at ilberty to use this as you may think proper; and believe me, yours, very respectfully.

N. B.—I can be seen at any time at the Mayor's office.

ton's Vegetable Tincture on our most respectable citi-zens—men well known and tried—we challenge the world to show anything on rescord in medicine to equal it. Many hundreds who have felt its healing powers bear the same testi-

Truth stranger than Fiction! - None need despair !-A Lady's Testimony after thirty-eight years of suffering!

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Northampson Co., April 13, 1852.

Messrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day on sight; I could not nove any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPPON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. REV. VERNON ESKRIDGE, U. S. N.

PORTSMOUTS, (Va.,) Aug. 18, 1851.

Mr. J. E. Bouzh—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizriness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

VERNON ESKRIDGE,

Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild ac-tion on the Stomach, Liver, and the Kidneys, will cure bys-pepsia, Cough, Asthma, Bronchial and Lung Affections; Pains in the Back, Side, and Breast; Consumption, Scrofuls, Rheumatism, Gout, Neuralgia, Fistula, Piles, Bowel Com-plaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine yer known.

sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Cham.

University of Ga., October 8, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are intended. Yours, truly,

Lexineron, Kr., February 20, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

equal, and I think superior, to any other rod ever offered for my inspection.

Augusta, (Ga.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospharic causes most likely to corrode them.

A. MEANS, Prof. Phys. Sc. Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have very seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. Siliman, yr., 1861.

All orders left at ANDREW DUFFY'S Stove Manufactory, 7th street, will be promptly attended to; or at GEORGE BELL/S, Alexandris, Va., corner of King and St. Asaph ats. ap 14—16
